Farm Smarter

Efficiently track fruit picked into field trays for shed packing

FreshTrack's Field Tray Picking System simplifies fruit harvesting, tracking, and payroll processes. Designed to operate seamlessly online or offline with any device, this system ensures accuracy and compliance.

- **Instant Results:** Pickers see daily tray and kilogram totals immediately.
- **Flexible Operation:** Works with or without an internet connection.
- **Data Transparency:** Live yield data accessible for sales and planning.
- **Payroll Simplified:** Integrate seamlessly with automated harvesting system.
- **Automation:** Integrate seamlessly with automated packing systems.
