

Shed Punnet Pack System

Precision packing in the shed.

 **FreshTrack**
Farm Smarter

Efficiently record and trace punnets packed in the shed

The Shed Punnet Pack System provides a smarter way to manage packing operations in the shed, ensuring accuracy and reducing manual errors.

- **Efficiency Boost:** Automated punnet counts eliminate manual tallying.
- **Quality Control:** Immediate resolution of packing errors with packer accountability.
- **Live Insights:** KPI screens display real-time performance data.
- **Complete Traceability:** QR-coded punnets provide batch and product details instantly.
- **G51 Digital Link:** Future proof your business now, and get G51 ready.
- **Automation:** Integrate seamlessly with automated packing systems.
